

## **Commercial offer of CJSC “Medical enterprise Simurg”**

CJSC “Medical enterprise Simurg” is looking to cooperate with wholesale companies which sell the products of medical purpose for obstetrics and gynecology.

CJSC “Medical enterprise Simurg” was founded in 1991 in Vitebsk (the Republic of Belarus).

During many years the company has been developing and manufacturing products of medical purpose for obstetrics and gynecology. Modern methods of running business, efficient and regulated manufacturing process, consideration for own history allow the enterprise to manufacture quality and needed in the market products, to react to customers' demands as quickly as possible. At the present moment “Simurg” manufactures 11 different models of intrauterine contraceptives, 19 types of instruments, 19 types of sets for gynecological examinations, Kusco speculum, sets of laminaria sticks, aspiration gynecological tubes, silicone pessaries, etc.

Scientific-research work is the basis for all developments of the company. On the basis of research materials were published more than 200 articles and monographs, were defended several theses, were received several patents. The enterprise actively interacts with the leading scientific-research centers of Eastern Europe, participates in the financing of medical and educational programs.

During the years of work CJSC “Medical enterprise Simurg” has become one of the leaders in the medical market, and its products conform to the European Union standards for this type of products. Modern equipment of European manufacturers, high qualification of employees and effective Quality Management System allow the enterprise to develop and improve the quality of manufactured products.

At the present time the company has a wide network of representatives. The products of the enterprise which are well-known with the trade mark “Yunona” are used in the clinics of Russia, Belarus, the Ukraine, Moldova, Kazakhstan, Uzbekistan, and Poland. The products are manufactured according to FEACN:

9018390000 – Aspiration gynecological tubes

9021101000 – Pessaries

3006109000 – Sets of laminaria sticks

9018908409 – All other products

At the moment the enterprise is going through the process of receiving CE conformity certificate and CE marking for its products.

You may find detailed information about manufactured products in our price-list (Annex 1), and also at our webpage <http://en.simurg-mp.com/>

A wide range of products allows to meet the needs of different customers. The products may be shipped via railroad, truck and air transportation. The enterprise offers flexible terms of co-operation with individual approach to each customer. Discounts system may be applied depending on the volume of purchased products, terms and

conditions of payment. We also can do the logistics for the goods. The dispatch may be carried out on FCA, DAF, DDU or any other terms upon the decision of our partners. Our enterprise pays for the customs processing. The lead time is 10 to 14 days. We also manufacture the products according to custom order.

CJSC “Medical enterprise Simurg” is interested in establishing long-term contacts with the companies of South America (Argentina, Brazil, Venezuela), Africa, Southeast Asia (Vietnam), India.

With hope for long-term effective co-operation,
