The products manufactured by JSC «Grodno Azot» are of high quality, meet the requirements of international and European standards. The high level of organization of production is confirmed by the certificates of quality management system ISO 9001.

Our company provides logistics services for delivery of goods. Shipment can be done based on any delivery terms as agreed with the buyer. Customs clearance of goods is made at the expense of the seller.

Terms of export sales of the company products.

JSC «Grodno Azot» sells its products for export by the procedure of export sales: participating companies receive an e-mail notice of next export selling with description of the conditions (name of the product, offered quantity, period of shipment, shipment terms, the date and time of the sales), further information is available on the website of the company www.azot.by, under the section «Sales». In due time the companies send their commercial offers drawn up according to the proposed form, to e-mail address: sales@azot.com.by. The main criterion for selecting the winners - the highest price. The winner will receive proof of purchase and the form of the contract for coordination and signing.

Terms of payment: 100% prepayment, currency of payment: only Euro or Russian roubles since JSC «Grodno Azot» is currently under US sanctions.

Further information about the products manufactured by JSC «Grodno Azot» can be found at company website: www.azot.by as well as in Appendix 1.

If it is necessary to provide catalogues in hard copies or presentations in electronic format, please advise the number of copies and mailing address for dispatching.
