

## POSTAGE STAMPS OF THE REPUBLIC OF BELARUS

The history of postage stamps of the Republic of Belarus begins on March 20, 1992 when the first Belarusian stamp "Cross of Saint Euphrosyne of Polotsk" was released into circulation. During these years over a thousand stamps have been issued (on 1.02.2015 - 1055 stamps).

Stamps reflect history, culture and art of a certain epoch. Thus postal issues represent and help to create the peculiar historical chronicles of the state by means of philately.

Belarusian stamps have a strong national trend. The most popular themes are:

- State symbols and heraldry;
- Flora and fauna of Belarus;
- Outstanding personalities;
- Art;
- Architecture of Belarus;
- Belarusian folk clothes;
- Sport.

Collecting postage stamps (**philately**) is the most massive and intellectual hobby in the world.

Belarus Post, considering the interests of philatelists, issues a wide range of philatelic products: postage stamps, sheetlets, and souvenir sheets. First Day Covers and Maximum cards of different subjects. Thematic and annual sets of stamps, booklets and other philatelic products are also available.

Recently the Belarusian stamps became more beautiful thanks to new technologies of frame perforation, relief stamping, selective varnishing, thermal stamping by metalized foil, etc.

**Today all postage stamps of Belarus are issued with elements of protection.** It is important that the elements of protection of commemorative stamps are original and they give additional information to the subjects of postal miniatures.

The apt expression "A postage stamp is a visiting card of the country" became popular long ago. Postage stamps of Belarus reach the most remote corners of the planet easily overcoming national boundaries. Using their bright and expressive language postage stamps tell about Belarus to people in all countries of the world.

The information about postage stamps and philatelic products of the Republic of Belarus can be found on the official website of RUEP "Belpochla": [www.belpost.by/stamps](http://www.belpost.by/stamps).
